

# Looking to volunteer outside?

Have expertise or personal interest in **birding**, **ecology**, **youth science activities**, **local history**, **interpretation**, or **leading volunteer events**?

Rosewood Nature Study Area is looking to increase its weekend visitation by introducing volunteer-led programming on Saturdays. This could include guided walks, bird tours, history talks, youth science activities, and small clean-ups or volunteer events. If you have something else to offer, let us know!
